28th January will remain significant in my life. In 2020, on that date, I gave my best in the GD at IGTC. In 2022, exactly on the same date, IGTC gave me the best in terms of an opportunity at Siemens Technology and Services. I have gained the strength, resilience and knowledge, and the ability to have faith in my dreams.

IGTC taught me how to appreciate the pursuit of perfection. It distinguishes out in the dual curriculum, where you learn and apply, as well as in the intellectual atmosphere created by teachers, where you learn values. I don't believe there is a comparable analogy to IGTC.
